

Warm Tips

Please check OS X version of your iMac before use the Zorro Macsk II:

1. iMac operating system version:

Zorro Macsk II factory setting supports OS X 10.10 and the latest version.

If you are using OS X 10.9 or earlier version, please download the firmware utility from website:

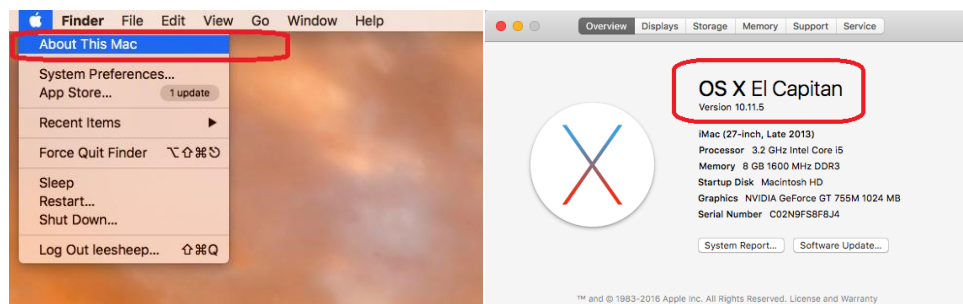

www.aogek.com/support

Then operate by follow the manual which in the utility.

2. How do you know your current OS X version?

Click on the Apple icon on the starting up desktop.

Click the “About This Mac” in Sub-menu, then you will see your current version in the dialog box.

3. OS X and windows touchscreen supports List
